

Structural Fumigation Use Monitoring Inspection Training Module

Application Phase

- Module 1.1: Document Review

GUIDANCE AND REFERENCES

Before starting this module,
have these three manuals available to consult:

- **Inspection Procedures Manual**
(Vol. 4 of DPR's "PUE Program Standards Compendium")
http://www.cdpr.ca.gov/docs/enforce/compend/vol_4/inspect_procedures.htm
- **Laws and Regulations**
(Vol. 2 of DPR's "PUE Program Standards Compendium")
http://www.cdpr.ca.gov/docs/enforce/compend/vol_2/lawsregs.htm
- **Laws and Regulations Relating to the Practice of Structural Pest Control** (including Business and Professions Code; a convenient booklet format published by Structural Pest Control Board)
<http://www.pestboard.ca.gov/pestlaw/act.shtml>

WHO SHOULD TAKE THIS TRAINING?

This series of training modules is intended for County Agricultural Commissioner (CAC) staff who perform structural fumigation inspections.

The procedures described in this presentation are intended solely for the guidance of employees of DPR and CACs. They do not constitute rulemaking by DPR. DPR and CACs may deviate from the procedures and guidance contained in the modules provided deviations do not conflict with law, regulation or policy.

This guidance was developed in May 2015 after consultation with the Structural Pest Control Board. If you have any questions, please contact the Department of Pesticide Regulation, Enforcement Branch Liaison serving your county.

PHASES OF A STRUCTURAL FUMIGATION

The three phases of a structural fumigation include:

- Application Phase
- Aeration Phase
- Certification Phase

APPLICATION PHASE

The five main tasks the CAC inspector has when inspecting the application phase of a structural fumigation:

- Document review
- Truck contents
- Exterior of structure walk-around
- Interior of structure walkthrough
- Observing the actual application

DOCUMENT REVIEW

This Document Review module covers five* inspection requirements from the application phase of Structural Fumigation Use Monitoring Inspection Report form:

#	REQUIREMENT
1	Registered in county
2	County notified 24 hours prior
3	Written notice to occupant
4	Pesticide disclosure signed / available
12	Handler(s) trained

* In total, there are 40 inspection requirements on the Structural Fumigation Use Monitoring Inspection Report form (PR-ENF-107, revised 01/2010)

Requirement #1: Registered in County

What and how to inspect:

- Check SPCB website; Review files at CAC office
 - Has SPCB issued a company registration?
 - Was structural pest control company registered with CAC prior to performing structural pest control for hire within the county?
 - Are Field Reps, & Operators licensed by SPCB?
 - Were licensees registered with CAC prior to working?

For more information:

- FAC § 15204.5
- Enforcement letter ENF 07-31 & Addendum

Requirement #1: Registered In County

Is this registration in compliance (yes or no) ?

Registration form on file at CAC

Answer: Yes, this requirement is in compliance

Yes for information on registration form - see FAC 15204.5 (b)

It is unclear whether licensees appeared in person at CAC office as required by FAC 15204.5 (c) - - but presumably CAC would not have allowed registration otherwise

Requirement #1: Registered In County

Is this registration in compliance (yes or no) ?

Fumigators arrived in a truck labeled with the name of the registered company

The tarp has a sign for a different company

Requirement #1: Registered In County

Is this registration in compliance (yes or no) ?

Fumigators arrived in a truck labeled with the name of the registered company

The tarp has a sign for a different company

Answer: Probably yes . . . but verify.

Many fumigations use a large sign for the Branch 3 company (the “primary contractor” with whom the property owner contracted), even though the actual fumigation is carried out by a separate Branch 1 company (the “subcontractor”). In such cases, verify that both companies have registered in the county.

Requirement #2: County Notified 24 hours Prior

What and how to inspect:

- Review Notices of Intent (NOI's) at CAC office.
- Did the structural pest control company inform the CAC of their intent to conduct fumigation operations at least 24 hours prior to commencing fumigation?

For more information:

- FAC § 15204.5(d)
- Check with your supervisor - - your CAC might have chosen to waive this requirement (“or as approved on a case-by-case basis by the commissioner”)

Requirement #2: County Notified 24 hours Prior

Assuming that your CAC requires the standard NOI format, is this in compliance (yes or no) ?

F A X

RECEIVED
Apr 01 2012
0430 PM

TO: Bestest County Agricultural Commissioner

FROM: Kilzall Brothers Pest Control
Fax: 999-222-0001 Phone: 999-222-0000

Please be advised that we intend to fumigate a structure located at

847 Poplar Street in Bestest City CA

on [month, day, year] April 3, 2012

using the pesticide sulfuryl fluoride

Notice of Intent faxed to CAC

Requirement #2: County Notified 24 hours Prior

Assuming that your CAC requires the standard NOI format, is this in compliance (yes or no) ?

F A X

RECEIVED
Apr 01 2012
0430 PM

TO: Bestest County Agricultural Commissioner

FROM: Kilzall Brothers Pest Control
Fax: 999-222-0001 Phone: 999-222-0000

DATE: April 1, 2012

SUBJECT: Notification of structural fumigation

Please be advised that we intend to fumigate a structure located at

847 Poplar Street in Bestest City CA

on [month, day, year] April 3, 2012

using the pesticide sulfuryl fluoride

Answer: No.

This NOI is missing the address of the structural pest control operator or company. The address is required by FAC 15204.5 (d). This NOI does include all other information required by FAC 15204.5 (d).

Notice of Intent faxed to CAC

- Follow up with your supervisor:
- What should you do in response to this violation?

You are now driving to the fume site...

The previous two requirements focused on documents that usually are reviewed at the CAC office:

- (1) Registration, and
- (2) Notice of Intent (NOI).

The remaining documents in this module are usually reviewed after you arrive at the fumigation site.

You are now driving to the fume site...

The previous two requirements focused on documents that usually are reviewed at the CAC office:

- (1) Registration, and
- (2) Notice of Intent (NOI).

The remaining documents in this module are usually reviewed after you arrive at the fumigation site.

Requirement #3: Written Notice to Occupant

What and how to inspect:

- Was written notice provided to owner and tenant at least 48 hours prior to application?
- If possible, ask the owner or occupant of the structure when a written notice was provided to them.
- If owner/occupant is not available, ask the Branch 1 licensee for the notice.
 - Was it provided 48 hours prior?

For more information:

- Business and Professions Code § 8538

Requirement #4: Pesticide Disclosure Signed

What and how to inspect:

- At the fumigation site, ask licensee for the Occupant's Fumigation Notice (OFN). Must be signed by occupant or his/her designated agent.
- If the signed disclosure notice is not available on site prior to the release of the fumigant, **stop the fumigation.**

For more information:

- 16 CCR § 1970.4 (a)

OFN is both the written notice and disclosure (at least for structural fumigations)

- B & P Code 8538 calls it “written notice” (and lists specific text that must be included)
- 16 CCR 1970.4 calls it “pesticide disclosure”
- Branch 1 fumigations use a single document that meets both requirements:
 - The Occupants Fumigation Notice (OFN)

Requirement #4: Pesticide Disclosure Signed

Occupant's Fumigation Notice and Pesticide Disclosure, from 16 CCR 1970.4 (a)

Must be completed

Must be completed

IMPORTANT - READ CAREFULLY

THIS BUILDING WILL BE FUMIGATED WITH LETHAL GASES ON THE DATE(S) INDICATED ABOVE. ALL PERSONS AND ANIMALS MUST VACATE THE PREMISES ON OR BEFORE ARRIVAL OF THE FUMIGATION CREW.

UNDER NO CIRCUMSTANCES CAN ANYONE ENTER THE BUILDING UNTIL THE FUMIGATION COMPANY'S NOTICE IS POSTED GIVING THE TIME AND DATE FOR SAFE RE-ENTRY.

"State law requires that you be given the following information: CAUTION-PESTICIDES ARE TOXIC CHEMICALS. Structural pest control companies are registered and regulated by the Structural Pest Control Board, and apply pesticides which are registered and approved for use by the California Department of Pesticide Regulation and the United States Environmental Protection Agency. Registration is granted when the State finds that based on existing scientific evidence there are no appreciable risks if proper use conditions are followed or that the risks are outweighed by the benefits. The degree of risk depends upon the degree of exposure, so exposure should be minimized."

If within 24 hours you experience symptoms of dizziness, headache, nausea, reduced awareness, slowed movement, garbled speech or difficulty in breathing, leave the structure immediately and seek medical attention by contacting your physician or Poison Control Center (telephone number) and notify your pest control company. The warning agent, chloropicrin, can cause symptoms of tearing, respiratory distress and vomiting. Entry into the space during fumigation can be fatal.

For further information, contact any of the following: Your pest control company (telephone number); for Health Questions - the County Health Department (telephone number); for Application Information - the County Agricultural Commissioner (telephone number) and for Regulatory Information - the Structural Pest Control Board, 800/737-8188, 2005 Evergreen Street, Ste. 1500, Sacramento, CA 95815.

[] Owner/Agent (signature) Helen Gruenig Date _____

[] Occupants(s) (signature) _____

43M-48 (Rev. 5/07)

“Fumigation – Written notice to occupant”
was one of the most common violation cited in structural
inspections (2009-11).

100

A cartoon illustration of a young girl with brown hair in a ponytail, wearing a blue jacket over an orange vest. She is holding a red octagonal stop sign with the word "STOP" in white capital letters. The background is a light blue cloud-like shape on a white background.

$\left[\begin{array}{c} 21 \end{array} \right]$

dpr

Requirement #12: Handler(s) Trained

What and how to inspect:

- At the fumigation site, ask each handler to see his/her license.
 - The reason is, a person holding a pest control operator or field representative license for Branch 1 is considered trained.

For more information:

- 3 CCR § 6724(d)
- 3 CCR § 6000 (definitions of “certified commercial applicator” and “handle”)

Requirement #12: Handler(s) Trained

Is this in compliance (yes or no) ?

Two employees of Kilzall Brothers Pest Control are working as handlers while setting up the fumigation:

- Joe Yablonkovitz
 - license, RA-44444 in Branch 3 from SPCB
- Joe Kilzall
 - license, OPR-9999 in Branch 1 from SPCB

Requirement #12: Handler(s) Trained

Is this in compliance (yes or no) ?

Two employees of Kilzall Brothers Pest Control are working as handlers while setting up the fumigation:

- Joe Yablonkovitz
 - license, RA-44444 in Branch 3 from SPCB
- Joe Kilzall
 - license, OPR-9999 in Branch 1 from SPCB

Answer: Not enough information yet.

Joe Yablonkovitz may or may not be trained. His Structural Pest Control Applicator license, by itself, is not enough. You will need to evaluate his training as you continue with your inspection (covered in module 5).

On the other hand, Joe Kilzall meets the definition of “certified commercial applicator” in Branch 1 and therefore is considered trained.

CONGRATULATIONS!

You have completed the DOCUMENT REVIEW module, which included five* inspection requirements from the Structural Fumigation Use Monitoring Inspection Report

#	REQUIREMENT
1	Registered in county
2	County notified 24 hours prior
3	Written notice to occupant
4	Pesticide disclosure signed / available
12	Handler(s) trained

* In total, there are 40 inspection requirements on the Structural Fumigation Use Monitoring Inspection Report form (PR-ENF-107, revised 01/2010)

Please complete the remaining modules before conducting an actual inspection of the application phase of a structural fumigation:

Document review

- Truck contents
- Exterior of structure walk-around
- Interior of structure walk-through
- Observing the actual application
